SKILLS SUMMARY

Programming Languages: Python, Java
Familiar with: C, C++, SQL, DBMS
Developer Tools: VS Code, Pycharm, Jupyter notebook
Technologies/Frameworks: Django Framework, REST API, Web Scraping
Soft Skills: Working Under Pressure, Problem Solving, Adaptability

EXPERIENCE

Augtech Nextwealth IT Services Pvt. Ltd.   **Feb 2023 – Present**
Application Developer   *Bhilai, Chhattisgarh*

- Successful **deployment** of **chatbots** from scratch, showcasing versatility in adapting to different platforms such as **WhatsApp, Web, and Instagram.**
- Engaged in effective **communication with clients** through calls, ensuring a thorough understanding of their preferences
- Implement **API integrations** to enhance the functionality and capabilities of the conversational AI systems.
- Integrated **Razor payment gateway** within the WhatsApp chatbot, facilitating secure and efficient **payment transactions.**
- Utilize **Python programming** language to build robust and efficient algorithms for processing natural language inputs and generating appropriate responses.

TwoWaits Technologies Pvt. Ltd.   **June 1 2022 – June 30 2022**
Python Scholar Intern

- Developed a deep understanding of Python syntax, data structures, and algorithms, utilizing them to efficiently solve coding challenges.
- Demonstrated proficiency in API integrations, seamlessly integrating external services and APIs into Python-based projects.

PROJECTS

Online Notes Sharing Site | *Python, Django*
- **Collaborated in a team** of three to design a web application for enhancing note accessibility and searchability for engineering students.
- Developed a website using **Django**, providing a user-friendly GUI for easy uploading of subject notes.
- Implemented robust features that allow users to upload, update, and delete their uploaded notes, ensuring a seamless note management experience.

Automatic News Poster | *Python, Django, Web Scraping*
- Led team of three to design and develop a web application to automate news posting process.
- Implemented **web scraping (Beautifulsoup)** techniques to extract news data from multiple news sites.
- Designed a visually appealing interface that presents news content in the form of images.
- Deployed the project on **Vercel** for seamless online accessibility.

Food Recipe App | *Java, XML, Android*
- Developed a food recipes app for **Android using Java** and integrated it with the **MealDB API**.
- The app allows users to explore a wide variety of recipes and view detailed information about each recipe.
